

Jack Tickle

Level 3 Transport Planning Apprentice at Buckinghamshire Council

Why apprenticeship?

Apprenticeships are a great opportunity for development as they are a sympathetic system. You get to learn and practice the content in the classroom and on the job, supporting your learning and growth.

Why transport?

I studied geography at university and enjoyed learning about transport systems. I believe that transport is essential to everyday life; it is the key to increasing social mobility and economic progression.

What have you gained from your apprenticeship?

I have gained a lot from my apprenticeship. I value the opportunities for growth that I have been given. My confidence in my own ability has increased whilst my skills and knowledge have progressed. It has been very rewarding seeing the real impact that my work is making.
